## Waste to Energy

Mr. Vishal Khalde, CEO and founder of Xeon Waste Managers - India, presents on 'Waste to Energy Innovation' to REREC senior officials. The innovation is meant to generate power from waste, encourage recycling and reduce carbon emissions.

Senior Management team, led by the Board member in charge of HR and Procurement Mr. Alex Chesosi and REREC CEO follow proceedings during presentation in the boardroom.

## CORPORATE SUPPORT

The Corporation has continued a culture of giving back to the society by focusing on the needy and less fortunate. This year alone, REREC did a cheque presentation of Kshs 50,000 in support of the 3rd Annual International Engineering Student's Conference held in Nairobi. The conference whose theme was 'Let's Go Green' was organized by the University of Nairobi Engineering Student's Association (ESA). Additionally, a donation of learning materials was made to Kwangii Primary School in Machakos County.

Rerec staff, Lucy Muricho presents the donation

Presentation of 50,000/= cheque by Engineer Jonathan

## FUNAE meets REREC

Established under the Mozambique Ministry of Energy and Mineral Resources, Mozambique Energy Fund (FUNAE), offers funding and financial guarantees to projects contributing to development of production of low cost energy services in both urban and peri-urban areas.

Officials visited REREC on a benchmarking mission and sharing of best practices in off-grid solar electricity generation.

Eng. David Gitonga (GM, Research, Strategy & Planning), leading the session on benchmarking.

## News Monitor

News Capture is successfully censored through a combination of media programs and monitoring. The impact of media coverage is conditional on the power of service delivery. With high demand of energy supply across the globe, the effectiveness of our mandate, is markedly communicated by use of newspaper, poster campaigns, radio, television, and social media platforms.
