

RURAL ELECTRIFICATION AND RENEWABLE ENERGY CORPORATION

The following clarification has been made for **RXF 1000001493: Tender for Provision of Air Ticketing Services for A Period of Three (3) Years through Framework Agreement** and clarified as follows;

No	Reference	Bidder's Query	REREC's Response
1	SRM price schedule Vs Priced activity schedule in the Tender Document	<p>We noticed a discrepancy between the items listed in the SRM Portal and the Tender Form/price schedules. The Items Tab in the SRM Portal only lists nine items, whereas the Tender Form and price schedules include five items due to the inclusion of Business Class tickets. Because of this difference in the number of line items, the total prices we enter in the SRM Portal do not align with the schedules. Please advice on how we should proceed.</p>	<p>Disregard the provision for Business Class tickets reflected in the SRM Portal. Your quotation should be submitted strictly for Economy Class only, in accordance with the Priced Activity Schedule contained in the tender document.</p> <p>Please ensure that the pricing entered in the SRM Portal aligns with the Economy Class rates as specified in the tender documentation.</p>
