

RURAL ELECTRIFICATION AND RENEWABLE ENERGY CORPORATION

The following clarifications were sought by a bidder for **RFx 1000001466: FRAME CONTRACT FOR PROVISION OF EVENTS MANAGEMENT SERVICES** and clarified as follows;

No.	Reference	Bidder's Query	REREc's Response
1.	"Preliminary Evaluation: Events Management" Clause No.21: The Tenderer shall chronologically serialize all pages of the tender document submitted.	<p>This requirement means that the whole tender document must be ready to enable serialization. This also means that we can only attach relevant documents on the portal on a day or 2 before the submission deadline.</p> <p>This is very tricky in case of system issues. Some documents are ready long before the submission deadlines and therefore do not require any preparation eg. Audited Financial statements, corporate documents, company profiles, etc</p> <p>QUESTION: can the bidders be allowed to upload the necessary documents on the portal as soon as they are ready to avoid technical system issues towards the submission deadline?</p>	This is a standard requirement for submission. It also highlighted in ITT 13
2.	ITT 24.1	Tenderers <i>shall</i> have the option of submitting their Tenders electronically.	This has been amended to read Tenderers <i>shall not</i> have the option of submitting their Tenders electronically
